

SENIOR SYSTEMS ENGINEER/ANALYST – Calgary Corporate Office

We have an exciting career opportunity for a Senior Systems Engineer/Analyst, who possesses previous experience with server deployment, administration, as well as an emphasis on task and process automation to join our EDR project team.

This position requires:

- Knowledge of RHEL, CentOS, Fedora Core, as well as kickstart, yum, and RPM
- Fluency in Perl, Bash, Java, C++, make, ant
- Experience with Apache, MySQL, Samba, nfs, bind, iptables, sshd, sendmail, and openvpn.
- RHCE and MySQL Certification would be an asset.

A university degree in Software Engineering, Computer Science or Computer Engineering along with 5 or more years of industry experience in systems development on Linux/Unix is required. In addition, the successful candidate should have well-developed interpersonal skills; effective problem-solving and investigation skills to document findings; good written and verbal communication skills; the ability to work effectively in a team environment; the ability to handle multi-tasked assignments; sound analytical skills; and, a high degree of initiative, common sense and logical and creative thinking.

At **PASON** we have created an energized, focused, and relaxed work environment that empowers each team member to push the envelope of traditional thinking to create new solutions to old problems. Our corporate culture nurtures imagination in an atmosphere where people are free to perform to their fullest potential in an open and friendly environment.

Pason promotes a healthy lifestyle within and outside the workplace. Some of the benefits employees enjoy include:

- Access to on-site amenities such as fitness / workout rooms, pilates classes, and yoga classes
- Foosball, ping-pong, and an outdoor ball hockey area.
- Summer barbeques and other Pason sponsored social/community activities held throughout the year)

If this sounds like **YOUR PASON**, and you would like to be a part of our continuing success story by joining a talented group of imaginative and creative people, we would like to hear from you. We invite you to forward your resume and cover letter to developer@pason.com with "Senior Systems Engineer/Analyst" in the subject field before the closing date of April 30, 2007. We thank all applicants in advance, however, only those selected for an interview will be contacted.
